OFFICIAL STATEMENT

The Eulogio "Amang" Rodriguez Institute of Science and Technology (EARIST) would like to categorically deny any involvement or association with individuals or mediators claiming to provide special assistance or guarantee admission to freshmen applicants in exchange for a fee.

Recent unfortunate events have come to the knowledge of the Institute administration that some students have obtained recommendation letters signed by local officials requesting for assistance to freshmen applicants, and that the obtaining of such documents were facilitated by an employee of the local government who asked for payment in exchange for a certain amount.

EARIST has not authorized nor engaged any third party or intermediary purportedly connected to local officials in facilitating admissions or other services.

While EARIST is always willing to extend assistance to the general public, we emphasize that the Institute remains committed to a transparent, honest, and merit-based admission process. The institution prides itself on serving the public with integrity, ensuring equal opportunities for all applicants through genuine and official channels only.

Applicants and their families are strongly advised to deal directly with official EARIST offices and personnel. Any offers or solicitations for preferential treatment outside the official admission procedures should be viewed with suspicion and reported immediately to EARIST and authorities.

EARIST continues to uphold its responsibility to provide honest and equitable service to all members of the community and to safeguard the integrity of its academic programs.

Thank you for your understanding and cooperation.
